BETTER MICROLEARNING

#EducateAll

EdApp X UNITAR - On a mission to increase access to practical, free, high quality and impactful education.

THE CHALLENGE

- Adult communities have traditionally been hard to reach
- No single organisation can power the courseware needed to be relevant and meet all educational needs
- Technology traditionally has not been advanced enough to deliver training that is easily digestible and accessible
- Knowledge is often locked up within enterprise organisations

THE PROBLEM

Adult education remains a global problem. In almost 1/3rd of countries, fewer than 5% of adults aged 15 and above participate in education and learning programmes

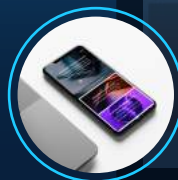

5%

THE SOLUTION

Together, EdApp and UNITAR believe we can help empower and educate millions of learners around the world, notably providing access to those furthest behind, with limited opportunities. We are providing access to a global crowdsourced course library, accessible via mobile phone, free for anyone with a desire to learn.

Currently powering

50,000 lessons a day, the platform has broad reach for **millions** of users in all corners of the world.

WHO WILL BENEFIT FROM THE COURSES?

Small business owners & workers

Startups & entrepreneurs

Parents & children

People in developing world

Students

Large organisations

WHO CAN CONTRIBUTE TO THE LIBRARY?

Large enterprise organisations

NFPs & NGOs

Individual thought leaders

Teachers or authors

Agencies

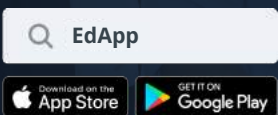

Anyone with knowledge to share
